

CIT-IBM Research Promotion Programme (RPP - 2010) on High Performance Computing And Cloud Computing

Coimbatore Institute of Technology Organized a two-day Research Promotion Programme, a unique program first of its kind, sponsored by IBM India Private Limited on High Performance Computing and Cloud Computing during 8th - 9th January 2010. Around 91 faculty members and research scholars from about 25 engineering colleges all over Tamilnadu participated in the programme. PG students from CIT also attended the programme to explore the opportunities in the high end technology area.

The Programme was focused on the advanced topics in the High Performance Computing domain, to enable the participants to get an insight into the current technological advancements in the said area. Eminent speakers from IIT Chennai and IBM India delivered lectures on High Performance Computing, Parallel Programming, Cloud Computing Architecture, Application and Challenges.

The chief guest Dr.D.Janakiram, Professor, IIT Chennai inaugurated the programme His Technical talk on "Introduction to cloud Computing" with a current research project as an example was an excellent opening session. The technical sessions with demos and case studies by Mr.Nysal Jan. Mr.GanesanNarayanasamy, Dr.Chiranjibsur, Ms.PriyadarshiniSampath Mr.SrinivasChidurala all from IBM India helped the researchers to further explore the avenues for research in the niche areas.
