ABOUT THE COLLEGE

Coimbatore Institute of Technology is a Government Aided Autonomous Institution started in the year 1956, by late Shri. V. Rangaswamy Naidu. The Institution has grown from strength to strength and has become a center for academic and Research excellence in various disciplines of Engineering and Technology. The Institute is affiliated to Anna University and situated in a campus area of about 25 hectares on the Chennai Cochin (NH 47) highway. C.I.T. is about 7 Kilometers from Coimbatore Railway Junction and 3 Kilometers from Coimbatore Airport.

ABOUT THE FDP

Big Data Analytics is the process of examining large amount of data of variety of types to uncover hidden patterns, unknown correlations and other useful information. The primary goal of big data analytics is to help organizations make better business decision.

Big data analytics can be done with software tools commonly used as a part of advanced analytics, disciplines such as predictive analytics and data mining. The technologies associated with big data analytics include NoSQL databases, Hadoop and Map reduce. These technologies form the core of an Open Source software frame work that supports the processing of large data set across clustered system. The FDP on "Big Data Analytics and Hadoop Map Reduce Frame "will discuss about Business Intelligence , Data Mining Techniques, and Hadoop Distributed File System and Map reduce.

The FDP aims at bringing the professionals, academics and research scholars together to share their knowledge for achieving focused development and advancement in the field of BIG DATA ANALYTICS.
