

Industry Institute Partnership Cell

The Industry Institute partnership cell of the institution provides the necessary platform for both the faculty members and students to interact directly with industry.

Objectives of IIPC

- To provide necessary career counseling through a variety of approaches like workshops, seminars and other programmes in association with industry and alumni mentors.
- Develop close connection between industry and the institute through interactions.
- Provide help to connect the students to industry, Government agencies and alumni and create awareness on the different career options available and enable them to take up internships at the required stages of their programme.
- Encourage entrepreneurial activities among the students.
- Provide professional consultancy by the faculty to industries
