There are currently about 3000 students pursuing their technical education. CIT was awarded with star news awards under the category National B-School awards 2011 for outstanding Engineering institution.

ABOUT THE DEPARTMENT

The Department of Chemistry was established in the year 1956. Apart from catering to the needs of engineering, the Department offers M. Phil (P.T) and PhD programmes. The Department has highly qualified and well-experienced faculty members of good repute with expertise.

ABOUT THE WORKSHOP

Just 50 years ago, materials we now take for granted were non-existent. Today, the market is flooded with different materials. Modern life would be incomparably different without synthetic chemicals which are called polymers.

The primary objective is to build awareness and competence in the area of polymers. This workshop aims to bring together faculty and research scholars working on polymers and related problems as well as young interested persons in this area, to foster learning, exchange learning and to promote further progress in their understanding.

COURSE TOPICS

- Basics of Polymers and Photo Sensitive Polymers
- Polymer Characterization
- Flame Retardant Polymers
- Polymer Composites
- Rubbers: Materials and Processing
- Liquid Crystal Polymers
- Polymer Application
