ABOUT THE INSITUTION

CIT is a Government aided Autonomous Institution started in the year 1962 by late Sri V.Pund Giámbar, the former Prime Minister of Tamil Nadu. The college is situated in a campus area of about 25 acres on the Chennai-Coimbatore National Highway (NH 44). CIT is a Government aided Autonomous Institution affiliated to Anna University, Chennai. The Institute has a reputation with several of its constituent faculty members, who have obtained national and international recognition for their research contributions in various fields of computer science and engineering. CIT is also engaged in various research and development projects funded by the Department of Science and Technology (DST), Government of India, and other agencies. The Institute has a strong tie-up with various industries and has been successful in the implementation of several projects in collaboration with the industry.

ABOUT THE ORGANIZATION

The Department of Mechanical Engineering at CIT offers undergraduate and postgraduate programs in various engineering disciplines. The department is equipped with state-of-the-art laboratories and workshops, including a machine shop, a robotics laboratory, and a computer-aided design (CAD) lab. The faculty members of the department are highly qualified and have extensive experience in both academia and industry. The department has a strong emphasis on research and has collaborated with several universities and industries in conducting research projects. The department also offers various opportunities for students to pursue internships and industrial projects, providing them with valuable practical experience.

TEQIP-II Sponsored
Two Days National Workshop on LEAN MANUFACTURING

29th & 30th, Jan 2015

Venue: Coimbatore Institute of Technology (CIT)

CONCLUSION

The Coimbatore Institute of Technology (CIT) organized a two-day national workshop on Lean Manufacturing. The event aimed to provide participants with an understanding of Lean manufacturing principles, focusing on improving efficiency and reducing waste in production processes. The workshop was attended by various experts and practitioners in the field of manufacturing, who shared their experiences and insights. The workshop covered various topics, including the principles of Lean manufacturing, Lean tools, and Lean implementation in real-world scenarios. The event was well-organized and received positive feedback from the participants. The Coimbatore Institute of Technology continues to offer such workshops to promote learning and development in the field of manufacturing.
